

Guide to Video Editing

Video editing is a method of using software to do post-production video editing of digital video sequences. Cameras and software available in the Spark! Digital Media Lab can be used to practice video editing in industry-standard applications.

Lab resources:

Equipment

- » 1 Canon DSLR
- » 1 Sony Handycam
- » Greenscreen & lighting

Software

- » Final Cut Pro X: an industry standard video editing application.

Adobe Creative Cloud including:

- » Premiere Pro: an industry standard video editing application.
- » After Effects: a digital visual effects, motion graphics, and compositing application.

The lab is outfitted with 4 Mac and 4 PC desktops.
